

iPod 4th generation Disassembly

we are going to show you how to take your ipod and disassemble and assemble it with nothing much with every day items

Written By: Nathaniel Shipman

INTRODUCTION

we are going to start off with my crack up ugly ipod my wifi antenna is messed up and I do not have a replacement part and the screen is messed up i cant replace it because my mom dont know i have this so i bought one by someone at school for 20\$ and was in a lot better shape but now is demolished im planning on using this one as parts but before i do that im making my guide so i hope u enjoy bare with me im new at this kk.

Step 1 — ipod 4th generation

- GO AHEAD DONT BE SHY PULL THAT IPOD OUT.

Step 2

- You will need a heat tool to realese the screen well since we are going to use every day household objects we will need to have a blowdryer or hairdryer
- BE SURE TO SET THIS ON LOW
- SINCE MY LCD IS ALREADY UNGLUED AND READY IMA SHOW U HOW TO GET THAT OFF
- WATCH OUT FOR THE THIN BLACK CORD ON THE TOP WHEN U GET THE FRONT PANAL OFF THE OTHER CORD IS SIMPLE TO GET DISCONNECTED

To reassemble your device, follow these instructions in reverse order.
